SPRING SUMMER 2026

This season, we celebrate the small, sensory glimpses that make summer something special. The quiet mornings when the sun falls softly on the table cloth in the kitchen. The green moments in the garden with soil between our fingers, as baskets and pots fill with all that grows freely.

With SS26, we invite you to enjoy peaceful pauses in bamboo furniture, draped with our ever-sought-after quilts. We move folding chairs to catch the light and raise colourful wine glasses in a toast to summertime. The garden becomes a holiday retreat where long afternoons and golden evenings are spent with family and friends. Fish-shaped trays and bowls capture a growing maritime trend and add a playful touch of summer to the table.

We have curated a collection of reliable, high-selling pieces for your customers to enjoy. Classic blue, green, and sandy tones are joined by butter yellow and watermelon red accents, expressed through flower-shaped vases and whimsical candle holders. The palette appeals to customers looking for familiar favourites and to those seeking a more colourful expression. The collection also introduces new variants of the ever-popular ceramic houses, which continue to be in high demand. We ensure prompt delivery at the start of the season.

The products accompany the many moments of summer – from cosy picnics with cooler bags and thermos bottles to embroidered textiles in unique Ib Laursen designs. Taper candles with stripes and seasonal motifs set the mood as the sun goes down, and conversations carry on long into the night.

SS26 gathers all the little things that create a summer to be savoured. Discover a strong selection of products that lend the collection broad appeal and offer new opportunities.

STAYCATION

Staycation is about enjoying the moments that arise at home. Quilts on the garden chair, green plants in baskets and pots, and lanterns that light up as evening falls. The small details – from decorative candle holders to ceramic houses – transform the surroundings into a place where days flow slowly and summer feels endless. Inspiration that makes it easy for your customers to recreate the holiday feeling at home.

A peaceful lakeside scene featuring a wooden dock in the foreground. On the dock, there is a wicker chair with a striped cushion and a patterned blanket draped over it. Next to the chair are two glass candle holders with lit candles and a small vase of sunflowers. A white swan is swimming in the water to the right. The background is filled with dense, lush green trees and foliage, creating a sense of tranquility and nature.

FOOD, FAMILY, AND FRIENDS

Summer evenings are lived around the table – in the kitchen and under the open sky. When tableware, textiles, and the right details come together with flowers and candlelight, a mood arises that inspires people to invite and share summer moments. A universe where table settings and togetherness become the very heart of summer.

Mynte® transforms
*everyday serving into small
moments* of beauty and delight
– where colours, shapes,
and flavours meet in
perfect harmony

Mix it
Match it
Mynte

Coffee,
but make it
bold

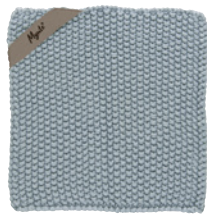

Mynte® for many uses

Mynte® textile is durable and made of 100% cotton with a fine, homemade look. Towel, dish cloth and pot holder have many uses and are available in a multitude of beautiful colours.

The towel can be used in the kitchen or in the bathroom as fine guest towels. The knitted dish cloths are also great as napkins when setting the table. Or as wash cloths in the bathroom. And the stylish pot holders – knitted with double yarn – protect your fingers, but can also be used as table trivets.

GARDEN GLIMPSSES

Here we feel the soil between our fingers and the joy of what sprouts. Baskets are filled with herbs, watering cans stand ready in the sun, and small birdhouses hide among the branches. Garden Glimpses celebrates the little corners where the garden grows freely and invites your customers to create their own green moments.

A decorative feeder
is a gift both
to the garden
and to the birds

FRAMES FOR LIVING

The furniture sets the scene for life at home – from everyday meals to quiet moments in the living room. The collection combines function and atmosphere in timeless designs that both inspire your customers and provide you with a strong selection that adds value in the shop.

A photograph of a natural furniture set on a wooden dock. The set includes a round bamboo table and a matching bamboo director's chair. On the table, there is a glass of water, a yellow plate, and a white napkin. A potted lemon tree in a wicker basket sits on the table. A yellow and white striped towel is draped over the chair. The background is a lush green forest reflected in a body of water.

RATTAN furniture

Rattan is known for its unique combination of flexibility and strength. It is a solid material, not hollow, which makes it ideal for creating furniture that is both durable and easily shaped.

Rattan furniture is best suited for indoor use, though it can also be used in covered outdoor areas. Maintenance is minimal – a simple wipe with a damp cloth is all that is needed to preserve its beautiful, natural appearance.

THE ART OF GIFTING

The small details make the difference. From paper, ribbons and gift tags to creative materials, here you will find everything your customers need to wrap gifts with personality and care.

A playful mix of essentials and decorative elements that turn even the smallest gift into something special – and make your shop even more inspiring.

RECYCLED paper

Our wrapping paper is Blue Angel certified – made from 100% recycled paper, with a manufacturing process that uses little energy and water. All designs are our own, created by our in-house designer.

Messages that brighten every moment

Come join us

The SS26 collection from Ib Laursen is inspired by the summer moments that turn into memories. The decorated summer table brings us together for the season's celebrations, while the garden hums with life and green glimpses.

Here you will find timeless classics that customers return to year after year. Colourful designs and fresh touches ensure that the collection speaks to many different tastes.

Explore our Ocean ceramics, aesthetic yet functional watering cans for the garden, and meet the new garden friends, joining our popular beach friends and yoga ladies.

With SS26, summer shines through in every detail. Golden bamboo furniture with soft throws evokes a staycation feeling in the garden, while the table is set with embroidered textiles and vases adorned with the season's flowers.

At Ib Laursen, you will find a wide variety of items rooted in the Nordic design tradition. This invites your customers to create a personal and seasonally relevant expression – both indoors and out.

We look forward to meeting you at the fairs, where you can experience the SS26 collection up close. Together, let's look ahead to a new season filled with atmosphere, inspiration, and room for renewal.
